ATTENTION RESIDENTS

BARNARD STREET CULVERT PROJECT

Please be advised that starting September 26th, Barnard Street will be closed between Franklin Street and the Railroad overpass (near Matlack Street). This closure is required due to the replacement of the culvert in this location. This culvert replacement is a major investment in our stormwater infrastructure which will help the water quality and flooding in the Goose Creek Watershed. This project is being funded by the Borough's Stream Protection Fee. It is anticipated that the project will last approximately three (3) months. This project will also require the coordination of Aqua and PECO to replace their respective water and gas mains.

The contractor and West Chester Borough Public Works will make every effort to provide access to your property without interruption. If you have any questions, comments or concerns, feel free to contact Michael Taggart, P.E., Public Works Deputy Director (610-696-5282).
